Reference letter

Dear Jim:

What we value most about our Microsoft Dynamics software and Vox ISM is;

1. It has automated our billing; we now have full electronic billing with the government.
2. The strong financial reporting in NAV, and the BI with the Vox ISM vertical accelerator software allows for deep analysis of our customers.
3. We now have full inventory control: the software tracks our inventory levels, orders, sales and deliveries. We now can avoid product overstock and outages.
4. The Vox ISM team has been responsive and knowledgeable.
