

Vox – CRM Reference Letter

Hi Jim,

26 Aug 2014

Coradix is a long time Microsoft CRM user, and now a Vox ISM customer. The software runs our business, and the Vox staff knows it inside and out. In addition, Coradix has installed a number of Case Management Microsoft CRM solutions for the Government of Canada, and Microsoft CRM has now become the standard Case Management software for the Government of Canada!

What we like about Microsoft CRM and Vox ISM:

1. Microsoft CRM is easy to use. It runs from Outlook, over the web, or on our mobile devices.
2. It manages both the Sales and Recruiting sides of our business.
3. The Case Management software allows us to provide our customers with a simple, powerful, flexible solution for many types of “cases”.
4. Vox is extremely knowledgeable about Microsoft CRM, and provides sound advice as to how to use it best.
5. There is a constant flow of new software both from Microsoft and Vox ISM.
