**Reference Letter**

Mr. Jim Heaton  
Vox ISM  
36 Glengowan Road  
Toronto, Ontario

Dear Jim:

We wanted to thank the Vox ISM team for getting us up and running on Microsoft Dynamics NAV and the Vox Business Intelligence (BI) software. What we like best is that:

1. The software is easy to use, and works like the Microsoft Office Products.
2. The NAV accounting and manufacturing software runs our business, and performs well.
3. What we like best is the Vox ISM Business Intelligence software. BI gives all our users the information necessary to drive smarter processes, improve performance, and become more effective in everything they do.

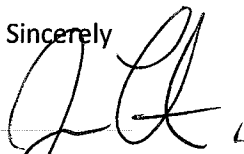

**About Mansour Mining:**

With 40 years in the underground mining sector, Mansour Mining Technologies Inc. is the largest Canadian owned provider of comprehensive ground support solutions, smelter hardware, mine ventilation, rock drilling tools, and custom fabricated products. MMTI's Canadian manufacturing facility is ISO 9001 certified, producing quality components that meet or exceed the Canadian Standards Association [CSA] M430-90 & American Society for Testing & Materials [ASTM] F-432 [Standard specification for roof & rock bolts & accessories].

MMTI's head office and Canadian manufacturing facility is located in Sudbury, Ontario, has a sales and distribution centres in Val d'Or, Quebec and has most recently added manufacturing capabilities to the sales and distribution office in Chihuahua, Mexico.

Thanks again Jim, we appreciate the ongoing support and the work from the Vox ISM team.

Sincerely

Jim Lister CPA, CA  
Controller, Mansour Mining
