## Reference letter:

Dear Jim:

We would be happy to be a reference for Microsoft Dynamics and Vox ISM. After a couple of years of using the software, here is what we have found:

1. We are growing exponentially, and the software supports our rapid growth.
2. CES Transformers motto is **“Customizable, flexible, & fast”**, the Microsoft NAV software with the Vox accelerator is the same!

ABOUT CANADIAN ELECTRICAL SERVICES <http://www.cestransformers.com/>

Our company story began nearly 30 years ago, with a vision, to become a leader in the manufacturing of distribution and power transformers. Almost 30 years later, this vision has translated into years of experience, knowledge, and flexible manufacturing. Our manufacturing capabilities include a wide range of transformers up to 15 MVA, 72kV, 350 BIL. With extensive industry knowledge C.E.S. Transformers has experience servicing customers and working on large scale projects in a variety of energy industries including:

- Municipal Hydro's within Canada
- Contractors
- Engineering Firms
- Renewable Energy Sector
